PROFILE

International economist with fifteen years of experience across government, international organisations, and independent consulting. Experience in working on complex development challenges, from SME export competitiveness to sustainable agriculture, across more than two dozen countries in Africa, Asia, and Eastern Europe. Strong track record of translating quantitative and qualitative research into clear recommendations for decisionmakers.

EXPERIENCE

Independent Economic Consultant

Feb 2022 – Present

Geneva

- Leading new quantitative and qualitative research for international organizations including UNCTAD, FAO, and ILO. Responsible for framing policy questions, synthesising evidence, and producing practical recommendations on a wide range of development topics.
- Writing reports and developing communications materials for specific and general audiences. Structuring theories of change and project design for interventions supporting inclusive growth under tight time constraints and with incomplete information.

Université Grenoble Alpes

Oct 2020 – Present

Lecturer, Development Economics · Grenoble

- Designing and teaching a graduate-level Development Economics course for the Master of Development Economics – Governance of International Development Organizations programme, with a focus on the use of real-world statistics and policy design.
- Translating complex technical analysis for mid-career practitioners and master's students. Advising thesis projects from students at UGA and international partner universities.

International Trade Centre (UN/WTO)

Oct 2018 – Jan 2022

Economist, Export strategies · Geneva

- Led policy analysis and consultation to design national development strategies in close collaboration with local stakeholders, identifying key constraints, building intervention logic, and developing prioritised policy recommendations.
- Managed relationships with government counterparts, private sector representatives, bilateral donors, and partner organisations to validate findings and build consensus around strategy design.
- Developed new analytical frameworks and internal tools for future strategies on investment attraction and the digital economy, and trained staff in their application.

OECD Development Centre

Jan 2013 – Oct 2018

Economist · Paris

- Researched and wrote several major OECD publications on structural transformation, productivity, and economic policy in middle-income countries, including the biannual *Economic Outlook for Southeast Asia, China and India*.
- Communicated the key messages of the teams' work to internal and external stakeholders. Wrote briefing materials for senior OECD staff; prepared press releases and responses to media inquiries; and presented intermediate and final results to staff, delegations, government officials, and subject matter experts.

Ontario Ministry of Finance

Sept 2008 – Aug 2010, Sept – Dec 2012

Economist · Toronto

- Prepared policy memos, briefing notes, and sector analyses for senior civil service and political staff as the lead analyst on infrastructure, transportation, and construction sectors.
- Co-authored the Office of Economic Policy's chapter of the provincial budget. Authored a report guiding internal analysis of the constraints to SME productivity and exporting.

United Nations

2011 – 2012

Internships with UNICEF, UNDP, and UNESCAP · New York / Bangkok

- Reporting on donor relations for UNDP's Annual Report. Researching infrastructure financing for UNESCAP's Macroeconomic Policy and Development Division. Monitoring data management for UNICEF's Education in Emergencies programme.

Ontario Cabinet Office

Sept 2007 – Aug 2008

Media Analyst · Toronto

- Monitored print and broadcast media and wrote daily briefing notes on key stories for the provincial government's central media monitoring and issues analysis branch. Led the development of a new product on media coverage of intergovernmental news stories.
